Our hope is that the letter-writing kit will help Angel Tree® children grow in their relationships with God and with their families. Angel Tree strives to support the bonds between children and their incarcerated parents, encouraging them to trust Jesus with their hearts and lives. Positive changes can be observed in a number of ways, such as children/caregivers attending church more, children/caregivers asking questions about God, children displaying more positive attitudes, children having a better relationship with their caregiver, or children having a better relationship with their incarcerated parent. Please complete the following survey to help us understand the impact of this kit as a resource.

Number of letter-writing parties held: _____

On average, number of children who attended each time: _____
