

WARDEN EXCHANGE[®]

A Program of Prison Fellowship

ONLINE PROGRAM

“‘Required material’ if a warden wants to be successful, because corrections is evolving.”

–Warden Exchange participant

“My attitude towards rehabilitation has taken a 180-degree turn
(for the better) as a result of my experience with (the Warden Exchange).”

–2018 Online Participant

EQUIPPING LEADERS. TRANSFORMING PRISONS.

The Warden Exchange® Online Program caters to individual wardens interested in transformational leadership principles. Through a revolutionary, interactive seven-month online, video-based program, wardens convene from across the country for intensive exchange of ideas with some of the brightest thought leaders in criminal justice, government, business, and academia. Upon completion of the program, wardens become part of a professional peer network of dedicated men and women committed to reimagining prison culture. Other features of Warden Exchange include:

- **MyWardenExchange:** an online resource and peer social media site that gives members easy access to original content and additional resources.
- **Warden Exchange Alumni Engagement:** connects current participants with Warden Exchange graduates who also participate in the online video sessions
- **Advisory Panel:** participants have access to a stellar advisory panel of former and current DOC state directors, past presidents of ACA and ASCA, former wardens whose body of work exemplifies transformational leadership.

With more than 40 years of bringing restoration to those affected by crime and incarceration, Prison Fellowship® works with the staff of hundreds of prisons across all 50 states. We partner with prison leaders to implement programs that help inmates adopt prosocial values while incarcerated, become productive members of society upon release, and ultimately create safer communities for all.

“It was wonderful, the best program I’ve been involved in. I hope more wardens get to
participate in it. I highly recommend it.”
